

ANNUAL INDEX, Vol. 8

A	H	M	N
AC ground wire monitoring system, August 37	Hill, George R. — Research, development & use of western coals, December 54	More on European roadheaders, July 50	National Coal Association
Acid mine drainage converted to potable water, March 38	— How to modernize an old operation, June 45	Moving a mountain to get coal, November 50	— NCA's 54th annual convention, September 62
Advanced training techniques introduced at maintenance school, June 58	I	Mullan, Joseph W.	National Safety Council
Alpine miners dig the rock at Oneida No. 4, October 54	Illinois Mining Institute has record attendance, January 52	— Where do we stand on plant stack gas controls? January 44	— Progress in mine safety, January 56
American Mining Congress — '71 AMC Coal Convention, The. April 48 August 44	In-situ drill features novel drive, February 46	January 44	New blasthole drill introduced, December 64
Augers, helicopters and radio, July 44	J	New coal hauler for the Captain, A, December 58	Nickeson, Floyd H.
Ayrshire Coal Co., Div. American Metal Climax Inc. Delta mine No. 5, Williamson County, Ill., June 45, 50	Jones, Donald C. — Clean air & water, November 66 — Crossflow screens, cyclones, and centrifuges, September 55 — Designed to process friable coal, November 57 — Five years of longwalling experience pays off, March 56 — How to modernize an old operation, June 45 — Kaiser Resources project, The, November 46 — Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — North Dakota's newest mine-mouth power plant, May 34	Central Pennsylvania's biggest mine(s) under development, August 40	— Central Pennsylvania's biggest mine(s) under development, August 40
B	Peabody Coal fuels another power plant, September 48 — Prototype underground mines, November 55 — Rebirth of an old-timer — storage battery power, The, December 48 — Survey of crawler dozers and wheel frontend loaders, A, July 36 — That refuse disposal problem, October 42 — They don't build plants like this anymore, June 50	Greenwich Collieries plant goes on-stream, October 50	— Greenwich Collieries plant goes on-stream, October 50
Baukof-Noonan, Inc., Center Mine, Oliver County, Minot, N.D., May 34	K	— "Last word" in unit trains is an all-Dixie operation, The, May 38	— "Last word" in unit trains is an all-Dixie operation, The, May 38
Bethlehem Mines Corp., Revloc No. 32 mine of Cambria Div., Ebensburg, Pa., March 56	Kaiser Resources Ltd., Sparwood, British Columbia, Canada, November 46, 50, 55, 57, 62, 66	Peabody Coal, Universal mine, Universal, Vermillion County, Ind., September 48, 52	Model mine with modern methods, A, April 68
Black Mesa No. 1 mine is different, February 32	Kaiser Resources project, The, November 46	Peabody Coal fuels another power plant, September 48	New blasthole drill introduced, December 64
Black Mesa Pipeline Inc., Black Mesa Plant, Northeastern Arizona, near Kayenta, February 30, 32, 37	Keeping an eye on Congress, January 38	Peabody puts Arizona on the coal map, February 30	Simplified preparation of utility fuel, April 72
Blending technique saves valuable coking coal reserves, June 31	L	Peabody's "Good Neighbor" policy (Comment), March 54	Y & O's Allison mine gets underway, April 66
Buckhorn Hazard Coal Corp., Wahoo, Perry County, Ky., May 38	"Last word" in unit trains is an all-Dixie operation, The, May 38	Ohio River Collieries Co., Junior Mine, Lafferty, Belmont County, Ohio, December 64	North Dakota's newest mine-mouth power plant, May 34
C	LeTourneau introduces the L-700 Letrohader, August 47	On-the-spot analysis for limestone dust control, October 62	O
Carl Bagge takes over at NCA (Comment), April 28	Let's go back to school! (Comment), January 33	"One Voice" is still there! The (Comment), August 30	Ohio River Collieries Co., Junior Mine, Lafferty, Belmont County, Ohio, December 64
Central Pennsylvania's biggest mine(s) under development, August 40	Levens, Harold D. — Black Mesa No. 1 mine is different, February 32 — Longest, largest coal slurry pipeline ever built, The, February 37	Oneida Mining Co., sub. of North American Coal Corp., No. 4 mine, Armagh, Pa., (Indiana County), October 54	Orne, S. H.
Clean air & water, November 66	— Peabody puts Arizona on the coal map, February 30	— SBA offers financial/management aid to coal business, February 44	
Coal men meet in an old silver-mining camp, September 65	— Unusual coal mine/power plant complex, An, October 57	Our energy crisis — nuclear fission or fusion? (Comment), December 22	
Coal Mining Institute of America — Tri-state miners meet in Pittsburgh, February 50	— Western coal prospects for the next 20 years, September 59	Our energy crisis — the oil situation (Comment), September 18	
Cochran, Neal P. — Present status of coal conversion processes, The, January 41	Linder, George C. — Clean air & water, November 66 — Designed to process friable coal, November 57 — Kaiser Resources project, The, November 46	P-Q	Peabody Coal Co., Black Mesa mines, Northeastern Arizona, near Kayenta, February 30, 32, 37
Conrad, James W. — Personal dust sampler calibration kit, March 43	— Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — Prototype underground mines, November 35	Peabody Coal Co., Universal mine, Universal, Vermillion County, Ind., September 48, 52	
Cornforth, Carol L. — Farming for profit on reclaimed land, August 32	Long-range, largest coal slurry pipeline ever built, The, February 37	Peabody Coal fuels another power plant, September 48	
Crossflow screens, cyclones, and centrifuges, September 52	M	Peabody puts Arizona on the coal map, February 30	Peabody's "Good Neighbor" policy (Comment), March 54
D	MFASH/MFBTU linear relationship, The, May 42	Present status of coal conversion processes, The, January 41	Percussion drills preferred for West Virginia strip-ping, March 50
Davidson, J. H. — Synthetic hydraulic fluids for mining equipment, September 56	Maintenance group holds 19th annual meeting, December 62	Personal dust sampler calibration kit, March 43	Personal dust sampler calibration kit, March 43
Designed to process friable coal, November 57	McClanahan, Jr., W. W. — Keeping an eye on Congress, January 38	Present status of coal conversion processes, The, January 41	Present status of coal conversion processes, The, January 41
E	Meadowlark Farms, Inc., Sub. of AMAX, — Outstanding equipment supplies and services chosen by the manufacturers from recent offerings to the coal mining industry, April 52	Progress in mine safety, January 56	Rebirth of an old-timer — storage battery power, The, December 48
Electrical innovations progress in underground mining, June 63	Meet Dr. Osborn — new BurMines director (Comment), February 32	Prototype underground mines, November 55	Report on the Interim Compliance Panel, A, February 41
Exhibition in print — Outstanding equipment supplies and services chosen by the manufacturers from recent offerings to the coal mining industry, April 52	Mine rescue & survival system tested, March 52	Riggs, Arnold — Switch in bits solves high cost drilling problem, A, January 54	Research, development & use of western coals, December 54
F	Mining Electro-Mechanical Maintenance Association — Electrical innovations progress in underground mining, June 63	Roadheaders preferred in European mines, March 44	
Farming for profit on reclaimed land, August 32	— Maintenance group holds 19th annual meeting, December 62	Rocky Mountain Coal Mining Institute — Coal men meet in an old silver-mining camp, September 65	
Fast connecting pipe speeds work, cuts cost, May 45	Model mine with modern methods, A, April 68	Rubber-tired tractor takes over coal loading job, February 48	
Federal Coal Mine Health & Safety Act of 1969, The, January 49	G		
First U.S. offshore deepwater terminal, June 65	Gaber, Andrew J. — MFASH/MFBTU linear relationship, The, May 42		
Fitzmorris, Thomas J. — Where do we stand on plant stack gas controls? January 44	Greenwich Collieries Co., Barnesboro, Pa., August 40		
Five years of longwalling experience pays off, March 56	— Maintenance group holds 19th annual meeting, December 62		
Forecast — Year ahead 1971, The, January 36	Greenwich Collieries plant goes onstream, October 50		
G	Hill, George R. — Research, development & use of western coals, December 54		
Gaber, Andrew J. — MFASH/MFBTU linear relationship, The, May 42	How to modernize an old operation, June 45		
Greenwich Collieries Co., Barnesboro, Pa., August 40	I		
October 50	Illinois Mining Institute has record attendance, January 52		
Greenwich Collieries plant goes onstream, October 50	In-situ drill features novel drive, February 46		
	J		
	Jones, Donald C. — Clean air & water, November 66 — Crossflow screens, cyclones, and centrifuges, September 55 — Designed to process friable coal, November 57 — Five years of longwalling experience pays off, March 56 — How to modernize an old operation, June 45 — Kaiser Resources project, The, November 46 — Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — North Dakota's newest mine-mouth power plant, May 34		
	K		
	Kaiser Resources Ltd., Sparwood, British Columbia, Canada, November 46, 50, 55, 57, 62, 66		
	Kaiser Resources project, The, November 46		
	Keeping an eye on Congress, January 38		
	L		
	"Last word" in unit trains is an all-Dixie operation, The, May 38		
	LeTourneau introduces the L-700 Letrohader, August 47		
	Let's go back to school! (Comment), January 33		
	Levens, Harold D. — Black Mesa No. 1 mine is different, February 32 — Longest, largest coal slurry pipeline ever built, The, February 37		
	Levin, George C. — Clean air & water, November 66 — Designed to process friable coal, November 57 — Kaiser Resources project, The, November 46		
	Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — Prototype underground mines, November 35		
	M		
	MFASH/MFBTU linear relationship, The, May 42		
	Maintenance group holds 19th annual meeting, December 62		
	McClanahan, Jr., W. W. — Keeping an eye on Congress, January 38		
	Meadowlark Farms, Inc., Sub. of AMAX, — Keeping an eye on Congress, January 38		
	Meet Dr. Osborn — new BurMines director (Comment), February 32		
	Mine rescue & survival system tested, March 52		
	Mining Electro-Mechanical Maintenance Association — Electrical innovations progress in underground mining, June 63		
	— Maintenance group holds 19th annual meeting, December 62		
	Model mine with modern methods, A, April 68		
	G		
	Hill, George R. — Research, development & use of western coals, December 54		
	How to modernize an old operation, June 45		
	I		
	Illinois Mining Institute has record attendance, January 52		
	In-situ drill features novel drive, February 46		
	J		
	Jones, Donald C. — Clean air & water, November 66 — Crossflow screens, cyclones, and centrifuges, September 55 — Designed to process friable coal, November 57 — Five years of longwalling experience pays off, March 56 — How to modernize an old operation, June 45 — Kaiser Resources project, The, November 46 — Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — North Dakota's newest mine-mouth power plant, May 34		
	K		
	Kaiser Resources Ltd., Sparashield, British Columbia, Canada, November 46, 50, 55, 57, 62, 66		
	Kaiser Resources project, The, November 46		
	Keeping an eye on Congress, January 38		
	L		
	"Last word" in unit trains is an all-Dixie operation, The, May 38		
	LeTourneau introduces the L-700 Letrohader, August 47		
	Let's go back to school! (Comment), January 33		
	Levens, Harold D. — Black Mesa No. 1 mine is different, February 32 — Longest, largest coal slurry pipeline ever built, The, February 37		
	Levin, George C. — Clean air & water, November 66 — Designed to process friable coal, November 57 — Kaiser Resources project, The, November 46		
	Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — Prototype underground mines, November 35		
	M		
	MFASH/MFBTU linear relationship, The, May 42		
	Maintenance group holds 19th annual meeting, December 62		
	McClanahan, Jr., W. W. — Keeping an eye on Congress, January 38		
	Meadowlark Farms, Inc., Sub. of AMAX, — Keeping an eye on Congress, January 38		
	Meet Dr. Osborn — new BurMines director (Comment), February 32		
	Mine rescue & survival system tested, March 52		
	Mining Electro-Mechanical Maintenance Association — Electrical innovations progress in underground mining, June 63		
	— Maintenance group holds 19th annual meeting, December 62		
	Model mine with modern methods, A, April 68		
	G		
	Hill, George R. — Research, development & use of western coals, December 54		
	How to modernize an old operation, June 45		
	I		
	Illinois Mining Institute has record attendance, January 52		
	In-situ drill features novel drive, February 46		
	J		
	Jones, Donald C. — Clean air & water, November 66 — Crossflow screens, cyclones, and centrifuges, September 55 — Designed to process friable coal, November 57 — Five years of longwalling experience pays off, March 56 — How to modernize an old operation, June 45 — Kaiser Resources project, The, November 46 — Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — North Dakota's newest mine-mouth power plant, May 34		
	K		
	Kaiser Resources Ltd., Sparashield, British Columbia, Canada, November 46, 50, 55, 57, 62, 66		
	Kaiser Resources project, The, November 46		
	Keeping an eye on Congress, January 38		
	L		
	"Last word" in unit trains is an all-Dixie operation, The, May 38		
	LeTourneau introduces the L-700 Letrohader, August 47		
	Let's go back to school! (Comment), January 33		
	Levens, Harold D. — Black Mesa No. 1 mine is different, February 32 — Longest, largest coal slurry pipeline ever built, The, February 37		
	Levin, George C. — Clean air & water, November 66 — Designed to process friable coal, November 57 — Kaiser Resources project, The, November 46		
	Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — Prototype underground mines, November 35		
	M		
	MFASH/MFBTU linear relationship, The, May 42		
	Maintenance group holds 19th annual meeting, December 62		
	McClanahan, Jr., W. W. — Keeping an eye on Congress, January 38		
	Meadowlark Farms, Inc., Sub. of AMAX, — Keeping an eye on Congress, January 38		
	Meet Dr. Osborn — new BurMines director (Comment), February 32		
	Mine rescue & survival system tested, March 52		
	Mining Electro-Mechanical Maintenance Association — Electrical innovations progress in underground mining, June 63		
	— Maintenance group holds 19th annual meeting, December 62		
	Model mine with modern methods, A, April 68		
	G		
	Hill, George R. — Research, development & use of western coals, December 54		
	How to modernize an old operation, June 45		
	I		
	Illinois Mining Institute has record attendance, January 52		
	In-situ drill features novel drive, February 46		
	J		
	Jones, Donald C. — Clean air & water, November 66 — Crossflow screens, cyclones, and centrifuges, September 55 — Designed to process friable coal, November 57 — Five years of longwalling experience pays off, March 56 — How to modernize an old operation, June 45 — Kaiser Resources project, The, November 46 — Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — North Dakota's newest mine-mouth power plant, May 34		
	K		
	Kaiser Resources Ltd., Sparashield, British Columbia, Canada, November 46, 50, 55, 57, 62, 66		
	Kaiser Resources project, The, November 46		
	Keeping an eye on Congress, January 38		
	L		
	"Last word" in unit trains is an all-Dixie operation, The, May 38		
	LeTourneau introduces the L-700 Letrohader, August 47		
	Let's go back to school! (Comment), January 33		
	Levens, Harold D. — Black Mesa No. 1 mine is different, February 32 — Longest, largest coal slurry pipeline ever built, The, February 37		
	Levin, George C. — Clean air & water, November 66 — Designed to process friable coal, November 57 — Kaiser Resources project, The, November 46		
	Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — Prototype underground mines, November 35		
	M		
	MFASH/MFBTU linear relationship, The, May 42		
	Maintenance group holds 19th annual meeting, December 62		
	McClanahan, Jr., W. W. — Keeping an eye on Congress, January 38		
	Meadowlark Farms, Inc., Sub. of AMAX, — Keeping an eye on Congress, January 38		
	Meet Dr. Osborn — new BurMines director (Comment), February 32		
	Mine rescue & survival system tested, March 52		
	Mining Electro-Mechanical Maintenance Association — Electrical innovations progress in underground mining, June 63		
	— Maintenance group holds 19th annual meeting, December 62		
	Model mine with modern methods, A, April 68		
	G		
	Hill, George R. — Research, development & use of western coals, December 54		
	How to modernize an old operation, June 45		
	I		
	Illinois Mining Institute has record attendance, January 52		
	In-situ drill features novel drive, February 46		
	J		
	Jones, Donald C. — Clean air & water, November 66 — Crossflow screens, cyclones, and centrifuges, September 55 — Designed to process friable coal, November 57 — Five years of longwalling experience pays off, March 56 — How to modernize an old operation, June 45 — Kaiser Resources project, The, November 46 — Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — North Dakota's newest mine-mouth power plant, May 34		
	K		
	Kaiser Resources Ltd., Sparashield, British Columbia, Canada, November 46, 50, 55, 57, 62, 66		
	Kaiser Resources project, The, November 46		
	Keeping an eye on Congress, January 38		
	L		
	"Last word" in unit trains is an all-Dixie operation, The, May 38		
	LeTourneau introduces the L-700 Letrohader, August 47		
	Let's go back to school! (Comment), January 33		
	Levens, Harold D. — Black Mesa No. 1 mine is different, February 32 — Longest, largest coal slurry pipeline ever built, The, February 37		
	Levin, George C. — Clean air & water, November 66 — Designed to process friable coal, November 57 — Kaiser Resources project, The, November 46		
	Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — Prototype underground mines, November 35

ANNUAL INDEX, Vol. 8

A	H	M	N
AC ground wire monitoring system, August 37	Hill, George R. — Research, development & use of western coals, December 54	More on European roadheaders, July 50	National Coal Association
Acid mine drainage converted to potable water, March 38	— How to modernize an old operation, June 45	Moving a mountain to get coal, November 50	— NCA's 54th annual convention, September 62
Advanced training techniques introduced at maintenance school, June 58	I	Mullan, Joseph W.	National Safety Council
Alpine miners dig the rock at Oneida No. 4, October 54	Illinois Mining Institute has record attendance, January 52	— Where do we stand on plant stack gas controls? January 44	— Progress in mine safety, January 56
American Mining Congress — '71 AMC Coal Convention, The. April 48 August 44	In-situ drill features novel drive, February 46	January 44	New blasthole drill introduced, December 64
Augers, helicopters and radio, July 44	J	New coal hauler for the Captain, A, December 58	Nickeson, Floyd H.
Ayrshire Coal Co., Div. American Metal Climax Inc. Delta mine No. 5, Williamson County, Ill., June 45, 50	Jones, Donald C. — Clean air & water, November 66 — Crossflow screens, cyclones, and centrifuges, September 55 — Designed to process friable coal, November 57 — Five years of longwalling experience pays off, March 56 — How to modernize an old operation, June 45 — Kaiser Resources project, The, November 46 — Long-range reclamation program, A, November 62 — Moving a mountain to get coal, November 50 — North Dakota's newest mine-mouth power plant, May 34	Central Pennsylvania's biggest mine(s) under development, August 40	— Central Pennsylvania's biggest mine(s) under development, August 40
B	Peabody Coal fuels another power plant, September 48 — Prototype underground mines, November 55 — Rebirth of an old-timer — storage battery power, The, December 48 — Survey of crawler dozers and wheel frontend loaders, A, July 36 — That refuse disposal problem, October 42 — They don't build plants like this anymore, June 50	Greenwich Collieries plant goes on-stream, October 50	— Greenwich Collieries plant goes on-stream, October 50
Baukau-Noonan, Inc., Center Mine, Oliver County, Minot, N.D., May 34	K	— "Last word" in unit trains is an all-Dixie operation, The, May 38	— "Last word" in unit trains is an all-Dixie operation, The, May 38

Bacharach LOW-PROFILE METHANE MONITOR

The easy to install and ruggedly constructed automatic methane monitor system that senses the presence of methane by sampling. It features a low, slim design control housing only 3 7/8" high x 13" x 16". The system cuts off power to the machine when 2% methane level is reached.

1. DETECTOR HEAD 2. LOW-PROFILE CONTROL HOUSING 3. REMOTE METER AND INDICATING LIGHT

Complies with U.S. Bureau of Mines Schedule 32A; granted Certification 32-A-7/MS.

For full details, send today for Bulletin L-731!

Whitmore's
Mechanic's Thread Loosener

...frees "frozen" nuts, bolts, pins

This world-famous, non-gumming lubricant eliminates rust and corrosion, even in salt atmosphere. Its exclusive formula is extra fast-acting. Just spray and rusted or seized pins, linkage, hinges, nuts, bolts, valves, etc. are quickly freed. No more forcing of parts, stripped threads or faulty seating. Wear is minimized. Breakage is reduced. Parts life is greatly extended. Order handy 16-oz. easy-spray can or in bulk.

THE WHITMORE MANUFACTURING CO. Lubricating Engineers Since 1893

CLEVELAND, OHIO 44127 / PHONE (216) 883-7272

Lubricating Leadership Since 1893 • Open Gears, Dripper Sticks, Cams • Open and Enclosed Chain • Speed Reducers • Enclosed Gear Cases • Roller, Ball and Sleeve Bearings • Wire Rope and Cable • Hydraulic Units, Torque Converters
